

Dear families

We're delighted to let you know that your child has been selected to take part in Dixons Lead Climb **from Monday 14th September**, a trust-wide programme designed to help students go even further and achieve their very best in GCSE English, mathematics or science.

What is Dixons Lead Climb?

Lead Climb brings together students who are ready to accelerate from strong foundations to outstanding outcomes. It is a high-quality additional offer, delivered outside the normal timetable, providing expert teaching, mentoring, and focused practice on the most important knowledge and strategies for exam success. Sessions are fully supervised, complement regular lessons (they do not replace them), and give students dedicated time to consolidate and extend their learning.

The programme includes:

- Expert teaching to deepen understanding of key topics
- Structured revision to strengthen confidence and recall
- Targeted intervention to push performance to the next level

What will your child experience?

Students will take part in a mix of morning meetings, masterclasses and after-school sessions. They will also have access to Base Camp, an online resource hub packed with quizzes, videos, and topic toolkits for independent study.

Component	Format	Timing	Room
Morning Mastery	Online, fully supervised in school	Mon – Thu: 08:00 - 08:30	B15
Mastery Studio	Online, supervised in school	Mon – Thu: 15:45 – 16:45	B15
Live Response	In-person, targeted support	Mon – Thurs	
Base Camp resource hub	Online	Accessible anytime	

What do we expect?

We ask that students attend all scheduled sessions, engage fully, and complete additional tasks via Base Camp. Your support in encouraging punctuality and commitment will make a real difference in delivering this final push for success ahead of their exams. Students will need to attend a test session on **Tuesday 8th September at 8:00am in B15** so they are aware of how to use the technology before we start on Monday 14th September.

Need more information?

If you have any questions, please contact me on the email below. I am the dedicated point of contact for the programme so please don't hesitate to reach out. We're excited to work with you and your child to make this year their most successful yet. Thank you for your continued support.
